BE THE BEST STEELMAKER

With manufacturing bases in Japan and 15 countries or more worldwide, Nippon Steel Corporation is Japan’s largest steelmaker and one of the world’s leading steel producers. Our group—the Nippon Steel Group—does business in four areas, starting with our core segment of Steelmaking and Steel Fabrication and including Engineering and Construction, Chemicals and Materials, and System Solutions. We undertake these businesses based on four pillars laid out in our Medium- to Long-Term Management Plan: 1) rebuilding our domestic steel business and strengthening our group’s management, 2) promoting a global strategy to deepen and expand our overseas business, 3) taking on the challenge of carbon neutrality and, 4) promoting digital transformation strategies. With the aim of continually growing to become the “best steelmaker with world-leading capabilities,” we will pursue world-leading technologies and manufacturing capabilities and contribute to society by providing excellent products and services.

NIPPON STEEL CORPORATION GROUP

Steelmaking and Steel Fabrication (Nippon Steel Corporation)

Engineering and Construction (Nippon Steel Engineering Co.,Ltd.)

Chemicals and Materials (Nippon Steel Chemical&Material Co.,Ltd.)

System Solutions (NS Solutions Corporation)

PLATE & CONSTRUCTION PRODUCTS

Steel sheets, plates, pipes, tubes, sections, and rails. Nippon Steel contributes to the building and development of a wide range of social and residential infrastructure in our field of expertise, ensuring the foundations of people’s lives.

FLAT PRODUCTS

Nippon Steel supports various industries and people’s lives by providing high-grade steel products such as steel sheets used to make wide variety of products, as well as materials used to produce various steel pipes. This motive ensures our customer’s satisfaction and world market expansion.

BARS & WIRE RODS

Nippon Steel provides high-quality steel wire in wide range of applications, including automobile, construction, and industrial machinery. We have been contributing to steel manufacturing and processing technology. Our technology can be used in various fields, from construction to automobile manufacturing.

PIPECES & TUBES

Nippon Steel is a world leader in high-grade seamless pipes used in oil and gas development and transmission sectors. We are also contributing to steel pipe manufacturing and processing technology. Our technology can be used in various fields, from construction to automobile manufacturing.

RAILWAY, AUTOMOTIVE & MACHINERY PARTS

Nippon Steel is deeply involved in the railway industry, providing high-quality steel for railway components and forged crankshafts. Our technology can be used in various fields, from construction to automobile manufacturing.

TITANIUM

In addition to its excellent properties such as lightness, high strength, and high corrosion resistance, etc., Nippon Steel has been utilizing the technologies and experiences accumulated in its long history to manufacture leading-edge products for the needs of the industrial machinery and aerospace industries.

STAINLESS STEEL

The Nippon Steel Stainless Steel Corporation provides steel plates, sheets, bars, and wire rods with a wide range of high-quality stainless steel products that are widely used in various industries, from automobiles to appliances. Our technology can be used in various fields, from construction to automobile manufacturing.
