Nippon Steel Corporation

Corporate Philosophy

Our Values
Nippon Steel Corporation Group will pursue world-leading technologies and manufacturing capabilities, and contribute to society by providing excellent products and services.

Management Principles
1. We continue to emphasize the importance of integrity and reliability in our actions.
2. We provide products and services that benefit society, and grow in partnership with our customers.
3. We pursue world-leading technologies and manufacturing capabilities.
4. We continually anticipate and address future changes, innovate from within, and pursue unending progress.
5. We develop and bring out the best in our people to make our Group rich with energy and enthusiasm.

Nippon Steel Company Profile
BE THE BEST STEELMAKER

Based on the long accumulation of technology through steelmaking, the Nippon Steel Group operates businesses in four areas: steelmaking and fabrication, engineering and construction, chemicals and materials, and system solutions, with the core business being steelmaking.

NIPPOON STEEL CORPORATION GROUP

STEELMAKING AND STEEL FABRICATION

Engineering and Construction
(Nippon Steel Engineering Co., Ltd.)

Chemicals and Materials
(Nippon Steel Chemical & Material Co., Ltd.)

System Solutions
(Nippon Steel Corporation NS Solutions Solutions)

PLATE
Nippon Steel contributes to enhancing the safety of structures and the development of society infrastructure by delivering high-performance steel plates for large industrial and social structures such as ships, bridges, and high-rise buildings; marine structures for gas extraction; and high-performance steel plates used for tanks and other energy-related products.

FLAT PRODUCTS
Nippon Steel supports various industries and people’s lives by delivering steel sheet used to make automobiles, electrical appliances, housing, beverage cans, transformers, and other goods. Heating, insulation, and processing bases worldwide, this unit provides high-quality, high-performance products and services in Japan and overseas.

BAR & WIRE ROD
Nippon Steel delivers high-quality, high-performance bars and rods to a wide range of industries including the automotive, construction, and industrial machinery industries. In the automotive business, this unit focuses on high-end products used in important automotive components such as engine, drive train, and suspensions.

CONSTRUCTION PRODUCTS
Nippon Steel delivers H-beams, steel sheet piles, steel pipe piles, rods, and other steel materials used in civil engineering and construction sections in Japan and overseas. By responding to diverse needs, this unit contributes to the development of infrastructure that supports people’s lives.

Pipes & Tubes
Nippon Steel is a world-leader in high-end seamless pipes used in oil and gas development and other energy areas. We respect to diverse needs such as large-diameter pipes for pipelines, steel tubes for automobiles, and steel tubes for construction and industrial machinery, we provide high-quality, high-performance products and services in Japan and overseas.

RAILWAY, AUTOMOTIVE & MACHINERY PARTS
Nippon Steel is the only manufacturer of railway steel wheels and axles in Japan. This unit’s major products are railway rolling-stock components and forged crankshafts for automobiles. The unit has two manufacturing bases for railway wheels and axles, and four bases for crankshafts in the world.

TITANIUM
Utilizing titanium’s lighter, high-strength, and corrosion-resistant properties, Nippon Steel is a world leader in titanium products for construction, aviation, general industrial, and consumer-related applications.

STAINLESS STEEL
Nippon Steel Stainless Steel Corporation provides steel products to a wide range of high-quality stainless steel products that includes steel plates, sheets, bars, and wire rods by supplying the most advanced technologies in the world. This subsidiary has developed the world’s first 316J-2700R high-temperature stainless steel, created the “F6” forward series, and a new type of duplex stainless steel.
